Regular Council Meeting Minutes

May 5, 2020
10:00 AM

Minute Recorder: Kelley Williams

Present: G. Anatole, T. Morris, D. Martin, J. Tom, S. Tom, K. Williams, N. Alexis

Guests: J. Hallman, B. Duncan, J. Erickson

I. Called to Order at 10:01 AM by Chief Anatole

Before we go into the work of the May 5, 2020 regular meeting of Council I would like to speak briefly to the significance of today's date. Today, May 5, is National Day of Awareness for Missing and Murdered Indigenous Women and Girls. This day honors the lives of our sisters who have gone missing or have been murdered. Please recognize and honor them. Pray for them, as well as their loved ones. Their stories matter. Their lives matter.

II. Approval of Agenda

Cautionary note from Administration regarding Late Items, the acceptance of late items to the Agenda should only rarely be used as it can create a perception of non-transparent governance. Members read the public Agenda and attend if they wish to bring questions forward. By placing late items on the table at the last-minute members may not have the chance to see the changes and engage with governance as fully as they may wish, thus circumventing the democratic process.

- a) Motion for approval of the amended Agenda for the May 4, 2020 regular meeting of Chief and Council to include the following late items.
- Chief statement regarding Missing and Murdered Indigenous Women
 - BCR #
 - Graphic overview of the existing and planned societies to serve Binche Whut'en as submitted by the Binche Keyoh Bu Society – New Business

RE: Housing Concerns-Pamela Alexis

To Whom It May Concern,

I am writing this letter in support of Pamela Alexis with regard to significant building-related health concerns noted in a recent viewing of the family home. The living room window and back door are showing signs of mold due to ongoing leakage that has reportedly developed since having been installed during a fairly recent renovation, and mold is now growing in the kitchen cupboards as well. Since the renovations described above were completed around the time Binche Whut'en was in the process of obtaining its independence from Tl'azt'en First Nation, this letter is being forwarded to both Nations for consideration.

It is well documented that mold exposure can cause significant health problems such as allergies and irritation (sinusitis, irritated eyes, cough, rashes, sore throat, and wheezing including shortness of breath). It can also worsen asthma and other problems associated with the lungs.

Pamela resides in the home with her three young children whose ages range from 2-5 years old. Although Pamela works very hard to maintain the cleanliness and safety of her home well above community standards, these concerns cannot be mitigated without first addressing the source of the problem.

We are hopeful that the above concerns can be remedied as soon as possible to support the health and well being of this family.

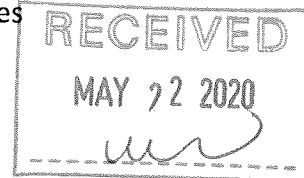

If you have any questions or concerns, please contact me at 250-996-7148 Ext 1.

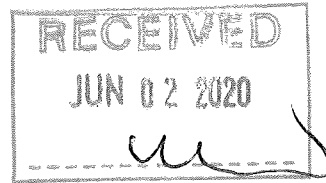

Sincerely,

David Hentschel,

Dear Chief Anatole:

This letter is to inform you that the Ministry of Forests, Lands and Natural Resource Operations & Rural Development has received a request from Sinclair Group Forest Products (Nechako Lumber Co.Ltd.) to sub-divide A16821 (Replaceable Forest License's (RFL) into two additional licences; A16821B and A16821C. This request is facilitated by the *Forest Act* Section 19(3)(b). In accordance with the *Forest Act* Section 19(3) the Minister must sanction this request to subdivide a licence. The minister may only refuse the request if he considers that the subdivision would compromise forest management as per the *Forest Act* Section 19(4). The intent is to amend RFL A16821 and create two new RFLs. The amount of AAC will still be 23,084m³, but it will be divided between the 3 RFL's. No new AAC is added in this process and both licences would have the same legal rights and obligations as the current licence.

The following table itemizes this request.

Divide AAC	To	Volume
RFL A16821 AAC of 23084 m ³	RFL A16821(existing)	10,000 m ³
	RFL A16821B(new)	10,000 m ³
	RFL A16821C(new)	3084 m ³
TOTAL VOLUME		23,084 m ³

Prior to proceeding with this *Forest Act* Section 19(3)(b) licensee request, the Minister's delegate needs to consider how known aboriginal interests may be adversely impacted by the licensee's request.

Based on a review of information currently available to government, in consideration of the territorial assertion of Stuart-Trembleur Carrier in the Lakes TSA, the Province's initial

Dear Chief Gerald Anatole and Band Council:

The Province of British Columbia has received an application and is initiating consultation on the following 2020 TEN Nak'azdli N1T Spring Infoshare:

PROPOSAL: KDL, on behalf of Nak'azdli Whut'en, has submitted an infoshare for blocks located in the Inzana portion of the First Nations Woodland License, N1T. As part of the consultation process, the Province is looking to receive feedback from you on any potential impacts to your Aboriginal Interests from this proposal.

APPLICANT: KDL on behalf of Nak'azdli Whut'en

LOCATION: NE of Inzana Lake

RESPONSE: is requested by **July 15, 2020**. Your review and response is required within the time period so that potential adverse impacts to aboriginal rights and title (Aboriginal Interests), may be fully considered in the decision making process.

The Province understands that the current situation regarding COVID-19 is serious and community health is a priority. Given these circumstances, we will respond and adjust timelines as necessary during this time to align with your consultation capacity.

You will have received an information sharing package from:

The Province will consider all available information regarding Aboriginal Interests over the proposal area prior to making decisions. Therefore, in addition to any information you may provide during this consultation process, the Province will be relying on the following information to understand your Aboriginal Interests and how the proposed activity may impact Binche Whut'en. The information may also be used to inform the development of potential measures to mitigate or avoid impacts to your Aboriginal Interests.

- No known cultural heritage or wildlife values were identified.

Based on an assessment undertaken by the Province of BC, taking into account potential impacts, known use and values, consultation is being set at normal.

We are available to meet with you to review the proposal and to discuss any concerns you have regarding the proposal. You are encouraged to bring forward any other interests or information not listed above.

In order to adequately address any concerns prior to the decision deadlines, please contact the undersigned by **July 15, 2020**, at 250-996-5275 or 778-693-3026. Re: Notice of Intent to Conduct AIAs Under Permit 2020-0134

To Whom It May Concern,

KDL Group has requested that Ecofor perform Archaeological Impact Assessments (AIA) in the Stuart-Nechako Natural Resource District. This is notification that Ecofor intends to assess the forestry blocks and associated access roads listed on the following page under Permit 2020-0134, which is a multi-assessment permit to perform AIAs on proposed forestry developments within the Stuart-Nechako Natural Resource District. Our contact at KDL concerning the attached blocks is Darryl Valk, phone 250-996-8032, email dvalk@kdlgroup.net.

Table 1 lists the developments to be assessed and the proposed development area sizes. Maps are included at the end of this document. Based on proponent needs, some developments are larger than the 125 ha/2 km standards outlined in the Multi-Assessment Permit Policy. Please refer to Table 1 for blocks greater than 125 ha. The Remote Access to Archaeological Data (RAAD) application and a database of previous archaeological study areas were accessed to determine the location and extent of any nearby studies which may affect the proposed assessments. A summary of these studies is included in Table 2.

The AIAs listed below support an essential service or emergency works that could affect public or environmental health and safety. Ecofor is committed to ensuring a safe work environment. We are closely monitoring messages and recommendations from the BC Centre for Disease Control, the BC Government, the Federal Government, and the World Health Organization. Our field study schedule will be modified if and as needed in response to the evolving COVID-19 situation.

This notice of intent is usually subject to a 30-day First Nations comment period; however, in light of the developing situation surrounding COVID-19 the notification period has been amended. In order to provide sufficient time for communities to respond to this notification, we are extending the comment period to 45 days. Should you have information, comments or concerns about the proposed archaeological fieldwork described in this letter, please contact Greg Holland of Ecofor at 250-960-1155 ext. 237 or via email at greg@ecofor.ca, on or before **July 06, 2020**. If you have concerns about impacts on Aboriginal Interests (asserted or established Aboriginal or treaty rights) resulting from this activity, or you would prefer to discuss concerns related to the assessment area directly with the Province, please contact Joel Kinzie at 250-953-3345 or Joel.Kinzie@gov.bc.ca at the Archaeology Branch, citing permit 2020-0134.

Ecofor anticipates commencing fieldwork on the attached blocks once the review period is over, in July of 2020. Ecofor accessed the Consultative Area Database (CAD) through the SOE (spatial overlay engine) report function on iMapBC to determine First Nations affiliations for these blocks.

If your office lacks the capacity to respond to this referral due to COVID-19, please let our firm know whether there's anything we can do to support your review, and when you might be able to respond to this Notice of Intent. We ask that you kindly respond to this Notification to confirm it has been received. Should you have any questions or concerns, please do not hesitate to contact us.

Best Regards,

Greg Holland

File: 10455-50/2020 NOW 1641222 Serengeti Milligan West

May 4, 2020

Chief Gerald Anatole and Band Council
Binche Whut'en
PO BOX 2039
Fort St. James, BC
V0J 1P0

Dear Chief Gerald Anatole and Band Council:

The Province of British Columbia has received an application and is initiating consultation on the following 2020 NOW 1641222 Serengeti Milligan West:

PROPOSAL: This application is for an extension to an already current MYAB on the Milligan West Property. That authorization, which ends March 22, 2021, was for 5 drill sites and a 21 line-km IP survey. Serengeti has requested that this date be extended until December 31, 2021 and for the addition of 10 reverse circulation drill sites.

Reverse circulation is accomplished through a track mounted drill rig that is able to navigate with little disturbance and does not require water.

APPLICANT: Serengeti Resources Inc.

LOCATION: Milligan West Property

RESPONSE: is requested by **June 5, 2020**. Your review and response is required within the time period so that potential adverse impacts to Aboriginal Rights and Title (Aboriginal Interests) may be fully considered in the decision making process.

The Province understands that the current situation regarding COVID-19 is serious and community health is a priority. Given these circumstances, we will respond and adjust timelines as necessary during this time to align with your consultation capacity.

The following table lists the authorization(s) required for the proposed activity and the agency responsible to issuing the authorization(s).

The Province will consider all available information regarding Aboriginal Interests over the proposal area prior to making decisions. Therefore, in addition to any information you may provide during this consultation process, the Province will be relying on the following information to understand your Aboriginal Interests and how the proposed activity may impact Binche Whut'en. The information may also be used to inform the development of potential measures to mitigate or avoid impacts to your Aboriginal Interests.

- The Fort St James Archaeological Predictive Model indicates Moderate/High archaeological probability,
- Nearest known Archaeological Site: 6.4km away - GgSb-7.
- No known wildlife values were identified.

Based on an assessment undertaken by the Province of BC, taking into account potential impacts, known use and values, consultation is being set at normal.

We are available to meet with you to review the proposal and to discuss any concerns you have regarding the proposal. You are encouraged to bring forward any other interests or information not listed above.

In order to adequately address any concerns prior to the decision deadlines, please contact the undersigned by **June 5, 2020**, at 250-996-5275 or 778-693-3026. If you prefer to provide written comment, please fax our office at 250-996-5290, by email to Heather.M.Carson@gov.bc.ca or direct mail to the address listed on the bottom of the first page of this letter.

Dear Chief Gerald Anatole and Band Council:

The Province of British Columbia has received an application and is initiating consultation on the following 2020 TEN FGE A89983 Spring Infoshare:

PROPOSAL: KDL, on behalf of Fort St James Green Energy Limited Partnership (FSJGELP), has submitted proposed cut blocks under license A89983. The license is intended to provide material to the bioenergy plant located in Fort St James, and not compete with the saw-log profile of other licensees.

APPLICANT: KDL on behalf of FSJGELP

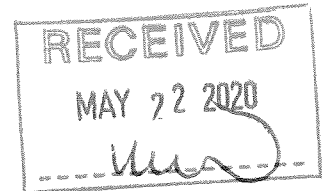

LOCATION: Various (see table attached to this letter)

RESPONSE: is requested by **July 14, 2020**. Your review and response is required within the time period so that potential adverse impacts to aboriginal rights and title (Aboriginal Interests) may be fully considered in the decision making process.

The Province understands that the current situation regarding COVID-19 is serious and community health is a priority. Given these circumstances, we will respond and adjust timelines as necessary during this time to align with your consultation capacity.

You will have received an information sharing package from:

- Darryl Valk on behalf of KDL
- Dated: March 17, 2020

Extended Health - Family	\$ 105.180
Extended Health - Single	\$ 54.980

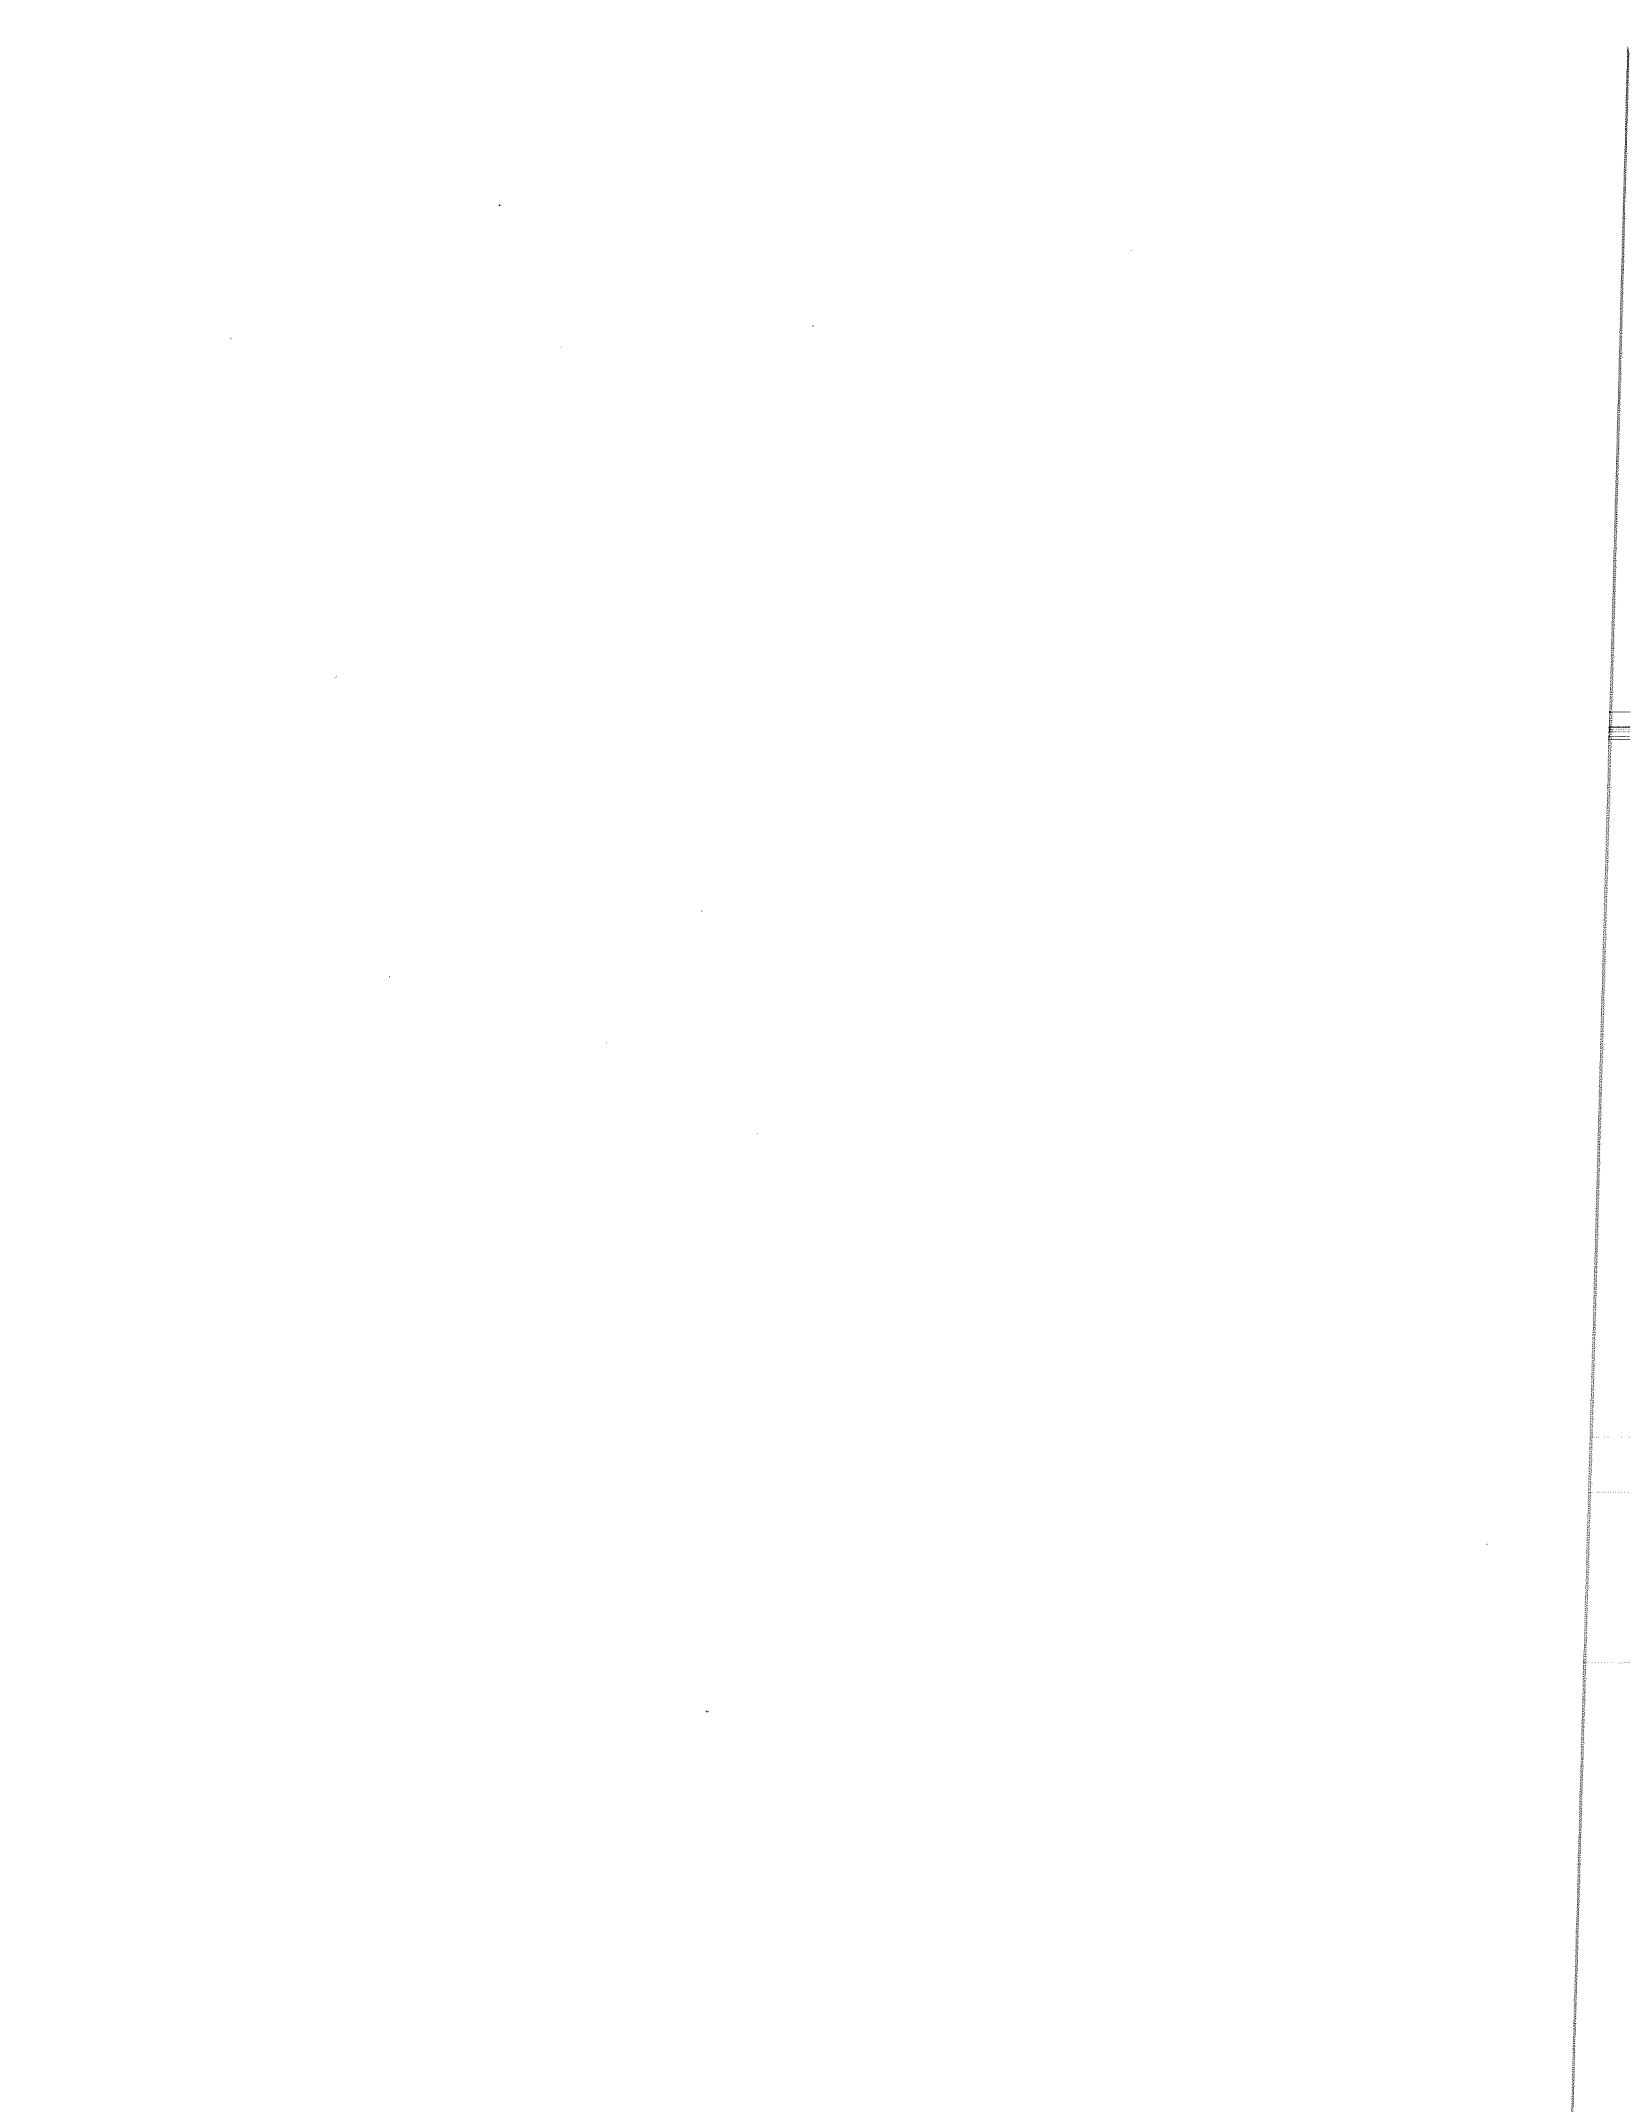

***Explanation of the term Volume:**

Volume is the figure used in calculating the monthly premium. It is defined as:

- The employee's actual **benefit** (For example, the benefit amount an employee would receive if approved for a Life claim.)
- OR, if your benefit is rated as a percentage (Percent symbol "%" following your rate(s) above), then it is defined as:
- The employee's eligible **payroll** amount, not the employee's actual benefit amount.

For detailed information about monthly premium calculation, please refer to your group policy or your Sun Life Financial Group Benefits Administrator's Guide.

This Notice is issued by Sun Life Assurance Company of Canada, a member of the Sun Life Financial group of companies.

Re: Notice of Intent to Conduct AIAs Under Permit Application 11200-30/20A0007

To Whom It May Concern,

Canadian Forest Products, Plateau Division, has requested that Ecofor perform Archaeological Impact Assessments (AIA) in the Stuart-Nechako Natural Resource District. This is notification that Ecofor intends to assess the forestry blocks and associated access roads listed on the following page under Permit Application 11200-30/20A0007, which will be a multi-assessment permit to perform AIAs on proposed forestry developments within the Stuart-Nechako Natural Resource District.

Note that Application 11200-30/20A0007 is pending approval. At this time, we wish to notify you of the pending assessments, which will not be conducted until after June 21, 2020, and only in the event the Archaeology Branch issues this permit. Should the permit not be in place by mid-June of 2020, Ecofor may conduct Preliminary Field Reconnaissance (PFR) assessments as an alternative. Our contact at Canfor concerning the attached blocks is Josh Balsom, phone 250-567-8268, email josh.balsom@canfor.com.

Table 1 lists the developments to be assessed and the proposed development area sizes. Maps are included at the end of this document. Assessment buffers have been included to accommodate changes by the proponent during final layout. These buffers will likely not be fully assessed during the AIAs and have not been included in the assessment area sizes. Based on proponent needs, some developments are larger than the 125 ha/2 km standards outlined in the Multi-Assessment Permit Policy. Please refer to Table 1 for blocks greater than 125 ha. The Remote Access to Archaeological Data (RAAD) application and a database of previous archaeological study areas were accessed to determine the location and extent of any nearby studies which may affect the proposed assessments. There are no known previous studies or previously recorded archaeological sites within 1 km of the proposed developments.

The AIAs listed below support an essential service or emergency works that could affect public or environmental health and safety. Ecofor is committed to ensuring a safe work environment. We are closely monitoring messages and recommendations from the BC Centre for Disease Control, the BC Government, the Federal Government, and the World Health Organization. Our field study schedule will be modified if and as needed in response to the evolving COVID-19 situation.

This notice of intent is usually subject to a 30-day First Nations comment period; however, in light of the developing situation surrounding COVID-19 the notification period has been amended. In order to provide sufficient time for communities to respond to this notification, we are extending the comment period to 45 days. Should you have information, comments or concerns about the proposed archaeological fieldwork described in this letter, please contact Greg Holland of Ecofor at 250-960-1155 ext. 237 or via email at greg@ecofor.ca, on or before **June 21, 2020**. If you have concerns about impacts on Aboriginal Interests (asserted or established Aboriginal or treaty rights) resulting from this activity, or you would prefer to discuss concerns related to the assessment area directly with the Province, please contact Joel Kinzie at 250-953-3345 or Joel.Kinzie@gov.bc.ca at the Archaeology Branch, citing permit application 11200-30/20A0007.

If your office lacks the capacity to respond to this referral due to COVID-19, please let our firm know whether there's anything we can do to support your review, and when you might be able to respond to this Notice of Intent. Ecofor anticipates commencing fieldwork on the attached blocks once the review period is over, in June of 2020. Ecofor accessed the Consultative Area Database (CAD) through the SOE (spatial overlay engine) report function on iMapBC to determine First Nations affiliations for these blocks. Should you have any questions or concerns, please do not hesitate to contact us.

Best Regards,

Greg Holland

Binche Whut'en Council is excited to say it is implementing plans to have increased staff back to office work starting June 15. Chief and Council will not be considering a full reopening of the offices until July 20, 2020, allowing for the full quarantine period following the Binche Fishing Derby.

At this time, it is important to know, however, that we are not opening up public access to our buildings.

Essential services which had been offered during our office closure, for example the services of our Health Centre, will continue with no change at this time. Clients must make an appointment and can only see the health workers if they are masked and only for the time needed to assist. No socialising or hanging out before or after your appointment!

We offer our thanks to all of our employees who have been working from home over the past several weeks. It has been a challenging time working in unusual environments.

There are numerous changes we have made to our working environment which will maintain the safety of our staff during this transition. Those changes include, but are not limited to:

- A two-week rotating on-site schedule, meaning 50% of employees will be in the buildings for two-weeks, the remainder to continue working from home. This allows for the 14-day monitoring for symptoms.
- The staff that have loyally worked in the offices during this pandemic will continue with their schedule of 3 days in office, working from home 2 days a week.
- The installation of plexiglass at our front desk counters in all buildings with a reception space.
- Provision of hand sanitizer, gloves, and masks to our employees. As well as gowns and face shields for our health staff.
- Strict social distance guidelines for staff who are required to interact with the public.
- Community members may make an appointment to speak with a staff member but must limit the length of the appointment (no socializing) and wear a mask in Binche Whut'en offices.
- Health home support visits will start again July 1st, staff will be wearing full PPE and we request the client where possible follow strict social distancing
- A comprehensive sanitation schedule for our buildings.

These changes were made in consideration of public health and WorkSafeBC guidelines, and are an important step towards reaching the 'new normal' of work.

We thank the Binche community for its continued patience, and we thank everyone's continued diligence to reduce the spread of COVID-19 in the Northern Health region, the province, and the country. We are certainly not done with this pandemic, but our combined efforts have made it possible to get to where we are today.
